I've been ripped off ! and I want my money back, slow motion issue very annoying and very much a let down! -5 stars 0/10. i7 8700k 16G ram RTX2070 512G ssd corsair h60 water cooler, and this the only game that doesn't perform.. Slow Motion Issue!

my notebook is great but for some mysterious reason I can't play this game, even when I put literally every little thing in the minimum (windowed, etc.) it still doesn't work, how am I supposed to play something in slow motion???????? And I also can't get the refund, so... I was literally stolen, I am VERY very frustrated with this

nvdiA geforce gtx 1050 ti VVVV 16gb RAM VVVV Intel Core i7-7700HQ CPU 2.80GHx 2.81 GHz

I can play the hardest games in a great resolution, but WWE 2K19 I can't play even with the lowest graphics configuration, I JUST WANT MY MONEY BACK. Literally spent the past 3 hours creating some characters, movesets and entrances, only to find out that this game is horrifically optimised! I've watched countless videos trying to get it to work, changed config settings, changed settings in the NVIDIA Control Panel and still the game remains slow or too fast! Too late to even refund it now. Absolutely disgusted.

If anyone has any advice on how to fix this, please leave a comment.. This game crashes and has so many unfixed bugs, it's been this way for the last few wwe 2k games on here. GTX 1080 here so I should have no problem running this game, more important than the crashes is the save bugs, I worked so hard to make my universe the way I wanted to and all my progress was gone the next time I played I am considering just switching to console I guess because I am a huge wrestling fan and just want to be able to play! I DO NOT RECOMMEND THIS GAME!. fix the damn slow motion

\u2665\u2665\u2665\u2665\u2665\u2665\u2665t!. FIX. THE BUGS. THAT MAKE. THE GAME. CRASH.

How the hell am I supposed to do anything when the game crashes every ten minutes?. Really fun but after like a month it gets kinda boring but its still fun.. While the core gameplay is good, how the hell do you have fun with this game? I really don't get it. I can fire up Virtual Pro Wrestling 2 or WWF No Mercy, create a guy and climb my way to the championship. Or I can throw on Wrestling Revolution 3D and have the same thing, but spice it up with some feuds and politics. If they just had a simple mode like this, I would play it, but there's absolutely nothing like it. There's just the bad myplayer mode where you go through totally scripted bad cutscenes and frustrating gimmick matches. You also have to get all your moves and clothes out of loot crates too. It looks like you can create a guy with everything unlocked, but there's no good modes to use him in. I just don't get this game at all. It's totally obtuse and bizarre, and I feel lost the second I try to navigate the menu.

I bought this for \$20 on sale. I bought it for a friend too. Fired up the stream, started the game. We discovered the story is limited to males only. Online matches are apparently limited to male vs male or female vs female. Input lag was awful. Movement was sluggish and running felt like being pushed slowly on ice. I shut the stream down after an hour because of how bad this game is. I was so disappointed i couldn't figure out what else to do. So i voluntarily played league of legends to hate myself further.. Dont waste your money on this garbage.. DESCRIBING GAME IN ONE WORD :- BUGGY. This game seems to run fine but has one hell of a learning curve if you've never played it before. Using a paddle helps but it's no joke, the learning curve is steep and there is no how to's that really give you answers to questions. Still totally worth it.
